WORK EXPERIENCE

Front-End Developer

Kites Dev

📅 September 2022 - December 2022 📍 Remote

- Developed a single-page and multiple-page web application using HTML5, CSS3, Bootstrap, JavaScript, Vue and jQuery.
- Created and maintained front-end code for websites (re-designs, seasonal updates).
- Utilized version control systems such as GIT to manage and deploy code.
- Implemented responsive design principles to ensure cross-browser compatibility.
- Troubleshoot and resolved front-end issues in a timely manner.

WordPress Developer

Kites Dev

📅 June 2022 - December 2022 📍 Remote

- Utilized HTML, CSS, JavaScript, and PHP for website development.
- Installed and configured plugins and widgets as needed.
- Created custom WordPress themes, plugins, and widgets as needed.
- Troubleshoot and resolved various WordPress-related issues.
- Created and maintained detailed documentation of all WordPress development projects.

Web Designer

Freelance

📅 March 2020 - December 2022 📍 Remote

- Designed websites for a variety of clients using HTML, CSS, JavaScript, and other web development tools.
- Created responsive designs using modern frameworks such as Bootstrap and Foundation..
- Developed and maintained web content including text, audio, and video.

OBJECTIVE

CS student and adept front-end developer focusing on JavaScript mobile-first development. After success with WordPress front-end development, I am eager to continue my career by joining the company's hardworking and interactive team where I will continue expanding my JavaScript knowledge into perfecting accessibility and responsive design.
